PROFESSIONAL SUMMARY

Computer Science student graduating December 2026 with experience developing Python desktop interfaces, JavaFX game systems, and mobile UI layouts. Skilled in Java, C, Python, SQL, JavaFX, and PySide6; brings technical troubleshooting and team collaboration experience.

TECHNICAL SKILLS

Languages: Java, C, Python, SQL | Frameworks / UI: JavaFX, PySide6 (Qt) | Tools: Git, GitHub | Areas: Desktop applications, UI development, software integration, troubleshooting

PROJECTS

Hurricane Eye Detection & Tracking — Desktop Interface & Integration

- Developed a PySide6 desktop GUI for exploring Atlantic hurricane imagery and detection/tracking results.
- Integrated the interface with a Python processing pipeline; supported storm selection, playback controls, eye location, confidence, motion metrics, and visualization options.
- Collaborated on an honors research project using NOAA GOES imagery and YOLO-based hurricane eye detection.

TrailGame — Random Event System (Team Project) | Java, JavaFX

- Designed and implemented randomized events for a post-apocalyptic survival game where players manage travelers and supplies; collaborated with teammates on gameplay integration.

MirrorStat TCG — Mobile Interface Design (Team Project)

- Designed visual layouts and interface organization for an iOS trading-card stat and effect tracker, emphasizing readability and intuitive controls; collaborated with the app developer.

Hurricane Safety AI Chatbot — Collaborative AI Project

- Contributed to a team project exploring local language models and retrieval-augmented generation for hurricane safety information.

EDUCATION & NASA EXPERIENCE

University of North Carolina Wilmington | B.S. Computer Science, expected Dec 2026

Forsyth Technical Community College | A.S., Honors, May 2024

NASA Community College Aerospace Scholars (NCAS) | NASA Langley Research Center

- Completed NASA Career Simulation; NCAS Certificate of Achievement.
- Honors: Phi Theta Kappa; Dallas Herring Award Finalist; President's List (3 times); Honor Graduate.

PROFESSIONAL EXPERIENCE

CPI Security | Installation & Service Technician | 2021–2022

- Installed and troubleshot residential cameras and security systems; provided customer-facing technical support.

Hanesbrands Inc. | Order Fulfillment & Shipping Lead | 2017–2021

- Supported order and inventory workflows using PKMS; coordinated shipping documentation and resolved fulfillment issues.

Lowe's Hardware | Electrical / Plumbing Customer Service Associate | 2023–2024

- Assisted customers with product questions, maintained stock, and supported store safety and organization.
